

Q1 2023 QUARTERLY INVESTOR PRESENTATION

*Transforming the way the world moves
materials from Port to Home*

Safe Harbor Statement & Disclosure

This presentation includes forward-looking comments subject to important risks and uncertainties. It may also contain financial measures that are not in conformance with accounting principles generally accepted in the United States of America (GAAP).

Refer to Hyster-Yale's reports filed on Forms 8-K (current), 10-Q (quarterly), and 10-K (annual) for information on factors that could cause actual results to differ materially from information in this presentation and for information reconciling financial measures to GAAP. Past performance may not be representative of future results.

Forward-looking information noted in the following slides was effective as of the Company's most recent earnings release and conference call (May 3, 2023). Nothing in this presentation should be construed as reaffirming or disaffirming the outlook provided as of that date.

This presentation is not an offer to sell or a solicitation of offers to buy any of Hyster-Yale's securities.

QUARTERLY OVERVIEW

Our Businesses

Hyster-Yale Materials Handling, Inc. (NYSE:HY)
is one company with three separately managed businesses

Our Core Lift Truck Business
Hyster-Yale Group

Our Attachments Business
Bolzoni

Our Fuel Cell Business
Nuvera

FOR EACH BUSINESS
Board of Directors ■ CEO ■ P&L and balance sheet ■ Tailored incentive plans

Key Takeaways – Q1 2023

Strong Results

Quarterly Revenues of nearly \$1 billion

Net income of \$26.6M was ahead of expectations

Moderating Headwinds

Price-to-cost ratio improving

Cost inflation rate slowing, fewer supplier constraints

Americas improvement outpacing EMEA

Improving Backlog

Backlog decrease of ~13% from Q1 2022 peak due to higher shipments and lower bookings

Backlog value increased:
Avg. sales price/backlog unit ~34% from Q1'22

Strong 2023 Results Expected

Improving backlog, moderating headwinds and maturing strategic initiatives expected to lead to significant revenues and profits

Long-Term Growth

Results of Core Strategies to transform HY's:

- ✓ competitiveness
- ✓ market position
- ✓ economic performance

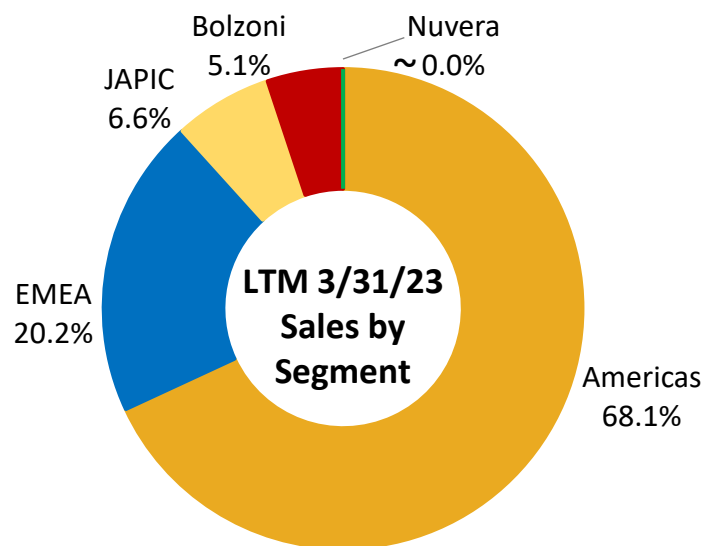

New Yale® Brand Identity Launched

Emphasizes focus on technology-enabled trucks to help warehouse material handling operations become more productive and cost effective

Hyster-Yale at a Glance

Hyster-Yale Materials Handling, Inc. (NYSE:HY) is a leading globally integrated, full-line lift truck manufacturer offering a broad array of solutions aimed at meeting the specific materials handling needs of its customers.

Key Metrics

In millions (except employee data)

Q1 2023:

	Lift Truck	Bolzoni	Nuvera
Revenue	\$948.7	\$98.6	\$1.6
Operating Profit (Loss)	\$47.8	\$4.4	(\$9.8)
EBITDA ⁽¹⁾	\$58.6	\$7.5	(\$9.6)

LTM 3/31/23:

Revenue	\$3,529.2	\$359.2	\$4.4
Operating Profit (Loss)	\$48.1	\$8.5	(\$36.0)
EBITDA ⁽¹⁾	\$83.7	\$20.7	(\$35.3)
Net Debt at end of period	(\$446.2)	(\$39.6)	N/A
Approximate # of Employees (globally)	6,700	1,300	200

⁽¹⁾ EBITDA is a non-GAAP measure and should not be considered in isolation or as a substitute for GAAP measures. See non-GAAP explanations and the related reconciliations to GAAP measures in the Appendix starting on page 56.

Strong, but Moderating Global Lift Truck Market

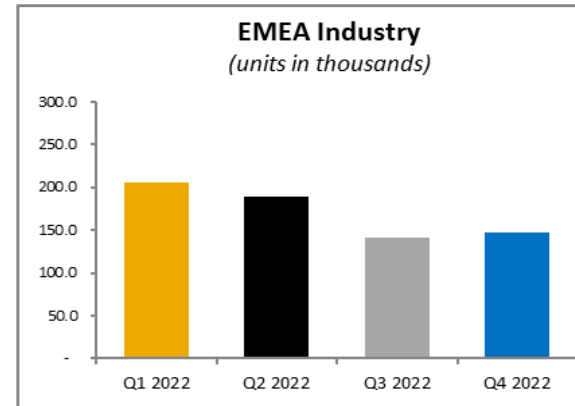

Global Lift Truck Industry Size*

Impact of Headwinds on HY are Moderating

Potential Headwinds

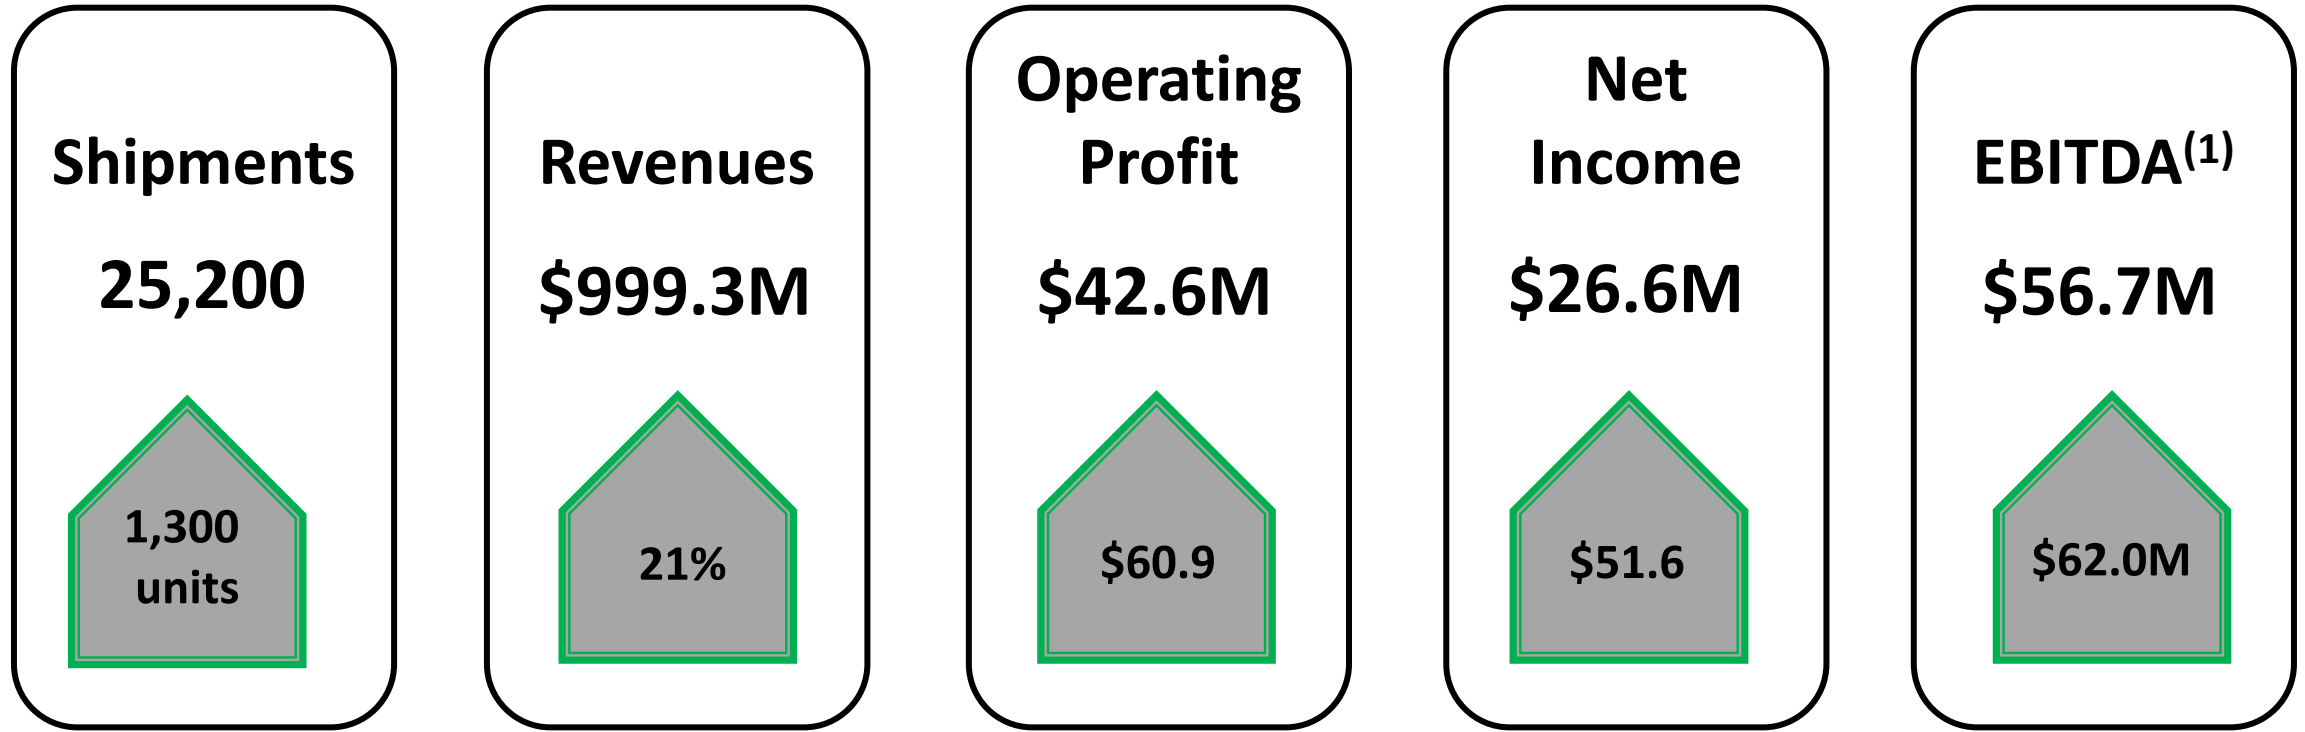

Russia/Ukraine
conflict expansion

Economic
Recessionary Trends

Marks progress against headwinds:

Improved Q1 2023 Consolidated Results versus Q1 2022

- Quarterly consolidated revenues in Q1 2023, up 21% versus Q1 2022
 - Higher pricing, increased sales volumes and a favorable sales mix
- Improved unit margins drove substantial improvements in Q1 2023 profitability versus Q1 2022 losses

(1) EBITDA is a non-GAAP measure and should not be considered in isolation or as a substitute for GAAP measures. See non-GAAP explanations and the related reconciliations to GAAP measures in the Appendix starting on page 56.

Results for Q1 2023 Consolidated vs. Q1 2022

CONSOLIDATED (\$ in millions)	HY Q1 2023	HY Q1 2022	Variance
Shipments	25,200	23,900	1,300
Revenues	\$999.3	\$827.6	\$171.7
Gross Profit	\$174.4	\$101.2	\$73.2
Operating Expenses	(\$131.8)	(\$119.5)	(\$12.3)
Operating Profit (Loss)	\$42.6	(\$18.3)	\$60.9
Net Income (Loss)	\$26.6	(\$25.0)	\$51.6
EBITDA ⁽²⁾	\$56.7	(\$5.3)	\$62.0

SEGMENTS (\$ in millions)	Q1 2023 Lift Truck ⁽¹⁾	Q1 2023 Bolzoni ⁽¹⁾	Q1 2023 Nuvera ⁽¹⁾
Revenues	\$948.7	\$98.6	\$1.6
Gross Profit (Loss)	\$155.6	\$20.7	(\$2.1)
Operating Expenses	(\$107.8)	(\$16.3)	(\$7.7)
Operating Profit (Loss)	\$47.8	\$4.4	(\$9.8)
EBITDA ⁽²⁾	\$58.6	\$7.5	(\$9.6)

Lift Truck

- Price increase benefits led to a 21.8% revenue increase, outpacing shipment increases
- Better-than-expected significant operating profit versus prior year loss
- 5% operating profit margin, despite higher employee-related costs and unfavorable currency effects

Bolzoni

- Operating profit more than doubled from the prior year
- Price increase benefits combined with higher sales volumes primarily drove results
- Lower material, freight and manufacturing costs also contributed to favorable results

Nuvera

- Increased revenue due to higher after-market component and engine sales to the Lift Truck Business and increased sales to third parties
- Higher product development and employee-related costs offset benefit of increased revenue

(1) These entities are presented on a stand-alone basis, and as such, do not sum to the Consolidated financial information.

(2) EBITDA is a non-GAAP measure and should not be considered in isolation or as a substitute for GAAP measures. See non-GAAP explanations and the related reconciliations to GAAP measures in the Appendix starting on page 56.

Improving 2023 Outlook

Backlog levels will drive future performance and support unit margin expansion

Lift Truck
Expect a significant increase in revenues and a substantial operating profit in 2023

Bolzoni
Expect increased margins over time and higher operating profit in 2023 versus 2022

Nuvera
Comparable operating loss in 2023 vs. 2022, but higher volume of demos should enhance foundation for improved returns

Substantial 2023 consolidated profitability expected

Average sales price/backlog unit increased by ~ 34% from Q1 '22 and ~ 2% from Q4 '22

- Continued progress made working through lower-margin unit backlog

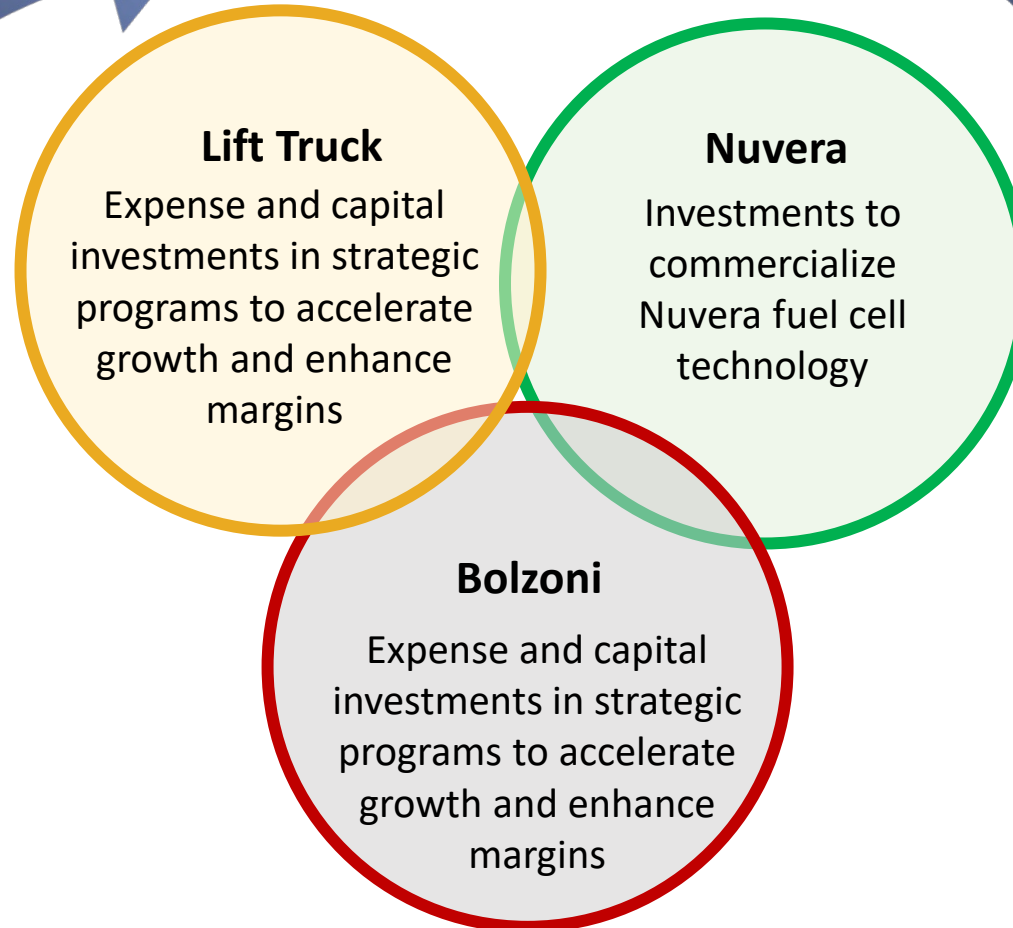

**March 31, 2023 and December 31, 2022 Unit Backlogs were reduced by 2,600 units and Unit Backlog \$ Values have been reduced by \$48 million and \$43 million, respectively, while March 31, 2022 Unit Backlog and Unit Backlog \$ Value were reduced by 3,200 units and \$54 million, respectively, due to suspended orders from Russian dealers for which the Company currently has no defined fulfillment plans.

Disciplined Approach to Capital Allocation and Cash Usage

Protecting Liquidity in current environment

- Unused Borrowing Capacity of ~\$186m and ~\$65m in Cash @ 3/31/23
- Managing capital expenditure timing for strategic programs; focusing on strict cost controls
- Concentrating on inventory reductions by maximizing utilization of on-hand materials to complete trucks in our backlog before ordering new materials

INVESTMENTS

Lift Truck

Expense and capital investments in strategic programs to accelerate growth and enhance margins

Nuvera

Investments to commercialize Nuvera fuel cell technology

Bolzoni

Expense and capital investments in strategic programs to accelerate growth and enhance margins

Return Cash to Stockholders

Annual Dividends ⁽¹⁾		
2021	2022	YTD 2023
\$21.6m \$1.29/ share	\$21.8m \$1.29/ share	\$5.6m \$1.29/ share

⁽¹⁾ Dollars represent total dividends paid during calendar year, while dividend per share represents the annualized dividend rate after May increase in 2021.

Core Strategies Designed to Drive Economic Engine by Increasing Market Share

Hyster-Yale has five core strategies to drive growth, with each supported by strategic projects

Transformational Projects Create a Strong Long-Term Investment Option

Through key strategic projects, HY is transforming its business using an Industry Approach to achieve financial targets

Lift Truck Transformation

Transformative Products

- Modular & Scalable ^(1, 2)
- Low Intensity ^(1, 2)

Technological Accelerators

- Electrification, Fuel Cell, Telemetry, Automation & Web Presence ^(1, 2)

Transformation of Sales Approach

- AsOne, HY Impact + HY Flow programs ⁽³⁾
- Industry approach ⁽²⁾

Bolzoni Transformation

Transformation of Global Business Structure

- One Company / 3 Brands
- Growth Projects for Americas (locally-produced products), EMEA (Smart Products) & JAPIC (Silver Line)
- Industry approach

Nuvera Transformation

- Commercialization of E-45 / E-60 engines globally
- Development of 360kW and 470kW modular fuel cell-powered generators
- Development of larger E125 engine
- Commercial Partnerships

Legend – Core Strategies

- 1 - Provide Lowest Cost of Ownership, while Enhancing Productivity for Customers
- 2 - Be the Leader in the Delivery of Industry- & Customer-Focused Solutions
- 3 - Be the Leader in Independent Distribution

Long-term Focused, not Short-term Oriented

STRATEGIC PERSPECTIVE

Overview

Overview and Sources of Revenue

A leading global lift truck manufacturer

Large installed population that drives parts sales
 ~ 990,000 lift truck units worldwide at 12/31/22

HY sales of ~ 103,100 lift truck units in **LTM 3/31/23**
 ~78,900 units sold – produced in HY plants
 ~13,900 units sold – produced by HY Maximal
 ~10,300 units sold – produced by JV or other third parties

Additional ~ 8,000 lift truck units sold in 2022 by Sumitomo-NACCO JV

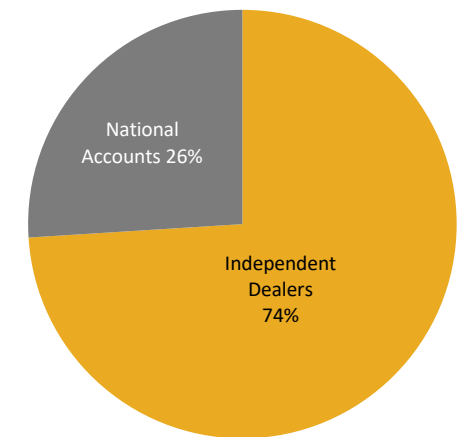

2022 Worldwide Sales by Product

2022 Retail Lift Truck Shipments by End Market (2)

2022 Lift Truck Distribution Channel Mix

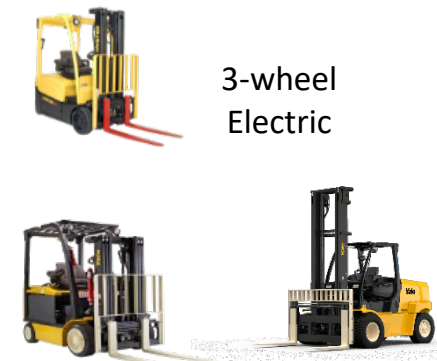

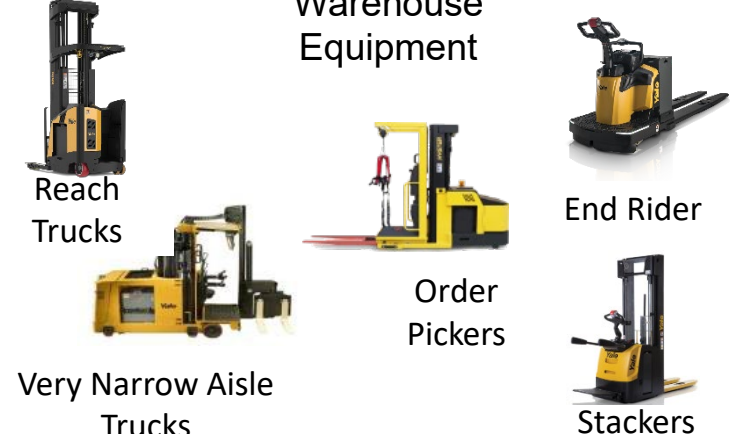

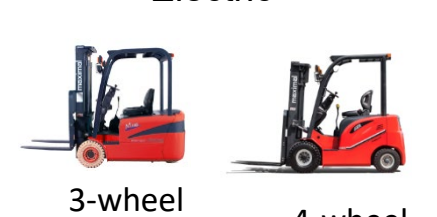

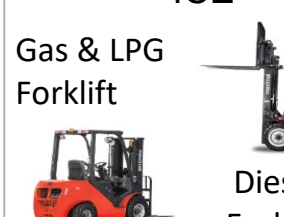

(1) Includes Big Truck sales that represent 9% of total sales.

(2) Represents Hyster-Yale North American Lift Truck unit shipments by industry.

Full Lift Truck Product Line - Over 600 Different Truck Models Available....

Hyster® & Yale® ~ 360 models

HY Maximal ~ 250 models

Lift Truck

New Yale® Brand Identity Launched in March 2023

- Launched new brand identity for Yale
- Yale Lift Truck Technologies focused on solving the toughest labor, safety and productivity challenges through technology integration and a customer-success philosophy designed specifically to address customer's application needs in the fast-paced, fast-growing warehouse markets
- Updated logo reflects capability of technology-enabled trucks to help warehouse material handling operations become more productive and cost effective
- Rendering at left showcases Yale Reliant™, a suite of operator assistance technologies designed to help support lift truck operating best practices. The technology automatically adjusts truck performance such as travel speed or hydraulic functions based on truck stability, facility rules and proximity to obstacles, people and other trucks.

Products and Technology

Primary industry trends are creating significant opportunities to use product and technology development to offer breakthrough solutions

STRATEGIC PROJECTS

Automation

OBJECTIVES/ BENEFITS

Right truck at the right price
Right products for low-intensity use
Cost of ownership and environment
Integrated with focus on productivity

Connected with data analytics
Operator productivity and safety
Operating cost and continuous operations

HY Product Launches

Launched in Q1 2023:

- New Platform double stacker with drive by wire steering and enhanced productivity for EMEA region.
- New 12-liter diesel engine option (Tier 3 emissions) for the Reach Stackers for AP region.
- New 14-meter mast option for the Moving Mast Reach Truck (MMRT) for global regions.
- Additional China GB4 engine options for Maximal-branded trucks for China region.
- Additional options for low-intensity Hyster® UT, Yale® UX lift trucks for AP region.
- New high performance 2-3.5 ton integrated Li-ion counterbalanced Maximal-branded truck for global regions.

Expected Launches in 2023:

- Increase production of 2-3.5 ton modular products in the Americas and EMEA.
- Launch the 2-3.5 ton modular products in the JAPIC markets.
- Upgrade certain warehouse products for the EMEA and Americas markets.
- Expand options of low-intensity Hyster® UT, Yale® UX, and Maximal-branded lift trucks for all regions.
- Deliver Hydrogen-powered Reach Stacker to Port of Valencia, Spain for testing.
- Deliver first hydrogen-powered Terminal Tractor to port in Hamburg, Germany for testing.
- Targeted introductions of internally developed, modular automated trucks.

Transformative
Solutions

AS1ONE.

Increasing HY engagement in the distribution process to deliver an “As One” customer experience with our dealer partners

Independent Dealer Network Drives Competitive Value

Scaling Global Distribution to Achieve HY Strategies

HY Augmented Sales Efforts Expands Market Participation

Distribution Engagement

Independent ■ Exclusive ■ Entrepreneurial ■ Profitable ■ Committed partner ■ Dual-line or single

Enhancing performance

- Dealer Excellence programs
- Dealer alignment
- Term-based contracts
- Hyster-Yale providing additional support

~900
global dealer
locations

~2,900
application
consultants

~11,000
service
technicians

Strengthening the distribution footprint

- Industry-focused sales support
- Competitor acquisitions
- In-territory acquisitions
- Enhanced digital customer experience systems
- Dealership succession planning

Bolzoni

Strong Base and Opportunities to Leverage Materials Handling Solutions

One of the world's leading manufacturers of lift truck attachments, forks and lift tables, cylinders and transmissions with an extensive product range

Bolzoni Auramo Inc – Sulligent, AL - Growth Drivers in Place

A plant to serve the Americas market

- Product localization focused on specific local market requirements
- Wide-handling attachments range, as well as forks
- North America and Latin America market coverage
- Expanded manufacturing of cylinders provides opportunity for Americas market

Bolzoni China: Growth Drivers in Place

Wuxi (Attachments)

- Product localization focused on specific local and global market requirements
- Competitive pricing and quick delivery time
- Improved productivity and efficiency from production process improvements
- Silver Line range manufacturing addressed to all markets

Competitively
positions
Bolzoni on cost
in emerging
markets

Hebei (Forks)

- Manufactures a complete range of forks for lift trucks, construction and agricultural material handling machines
- Fork range includes reach forks and smart-fork solutions
- Range developed to meet global market needs
- Continuously improving production processes

Bolzoni Has a Strong OEM Foundation

OEM TOP CUSTOMERS⁽¹⁾⁽²⁾

OEM SALES BY REGION⁽¹⁾⁽²⁾

OEM SALES BY PRODUCT LINE⁽¹⁾⁽²⁾

- (1) For the 12 months ended 12/31/22
- (2) Excludes cylinder sales to HY

**STRONG AND LONG-TERM RELATIONSHIPS RESULTING IN
BUSINESS GROWTH ACROSS ALL REGIONS**

Nuvera

Nuvera Is a Transformational Opportunity

NUVERA[®]

Leading, Patented Technology

Demand Tapered in Short-term

Automated Fuel Cell Stack Assembly Lines for Series Production

Successful Early-Stage Adoption

Expected Transformational Impact on Hyster-Yale Future Profitability

At a Glance:

Technology Experience

- 75+ engineers
- 8th generation of Fuel Cell technology
- 20+ years of Fuel Cell vehicle integration

Intellectual Property

- 425+ active patents
- Fuel Cell core technology

Application Portfolio

- E-45kW & E-60kW Fuel Cell engines SMVIC-certified
- First bus with E-series engine MIIT certified
- High-efficiency Fuel Cell stacks

Separate Business Unit

- Focus on core product (Fuel Cell Stacks and Engines)
- Leveraging Hyster-Yale strengths
- Ramping up for growth

Nuverera Has a Distinctive Place Within Hyster-Yale

Growing hydrogen fuel cell market provides opportunities for Nuvera to add significant value to HY

- Venture business, with strong commercialized products, focusing on gaining sales
- Important supplier fit as part of HY's focus on a broad range of alternative power systems for lift trucks, with a significant market opportunity outside the lift truck market
- Key sales and profitability milestones established but timing cannot be predicted with precision
- Despite losses, HY believes Nuvera is creating significant value for HY shareholders

NUVERA®

Technology: Optimized Fuel Cell Engine Design

Nuvera® FC Engines enable commercial and industrial vehicle electrification

Embedded controls

For ease of integration, reliability, and durability

Unique Stack architecture

High efficiency and power density

Telemetry

Effective remote monitoring of FC engine

Nuvera Product Platforms: Comprehensive approach to hydrogen mobility market

Nuvera makes FC technology
WORK for customers

Stacks / Subsystems

For OEMs that understand
stack deployment

Broadly applicable:
scalable and modular

E-Series Fuel Cell Engines:

E-45 and E-60

Easily integrated fuel cell
module

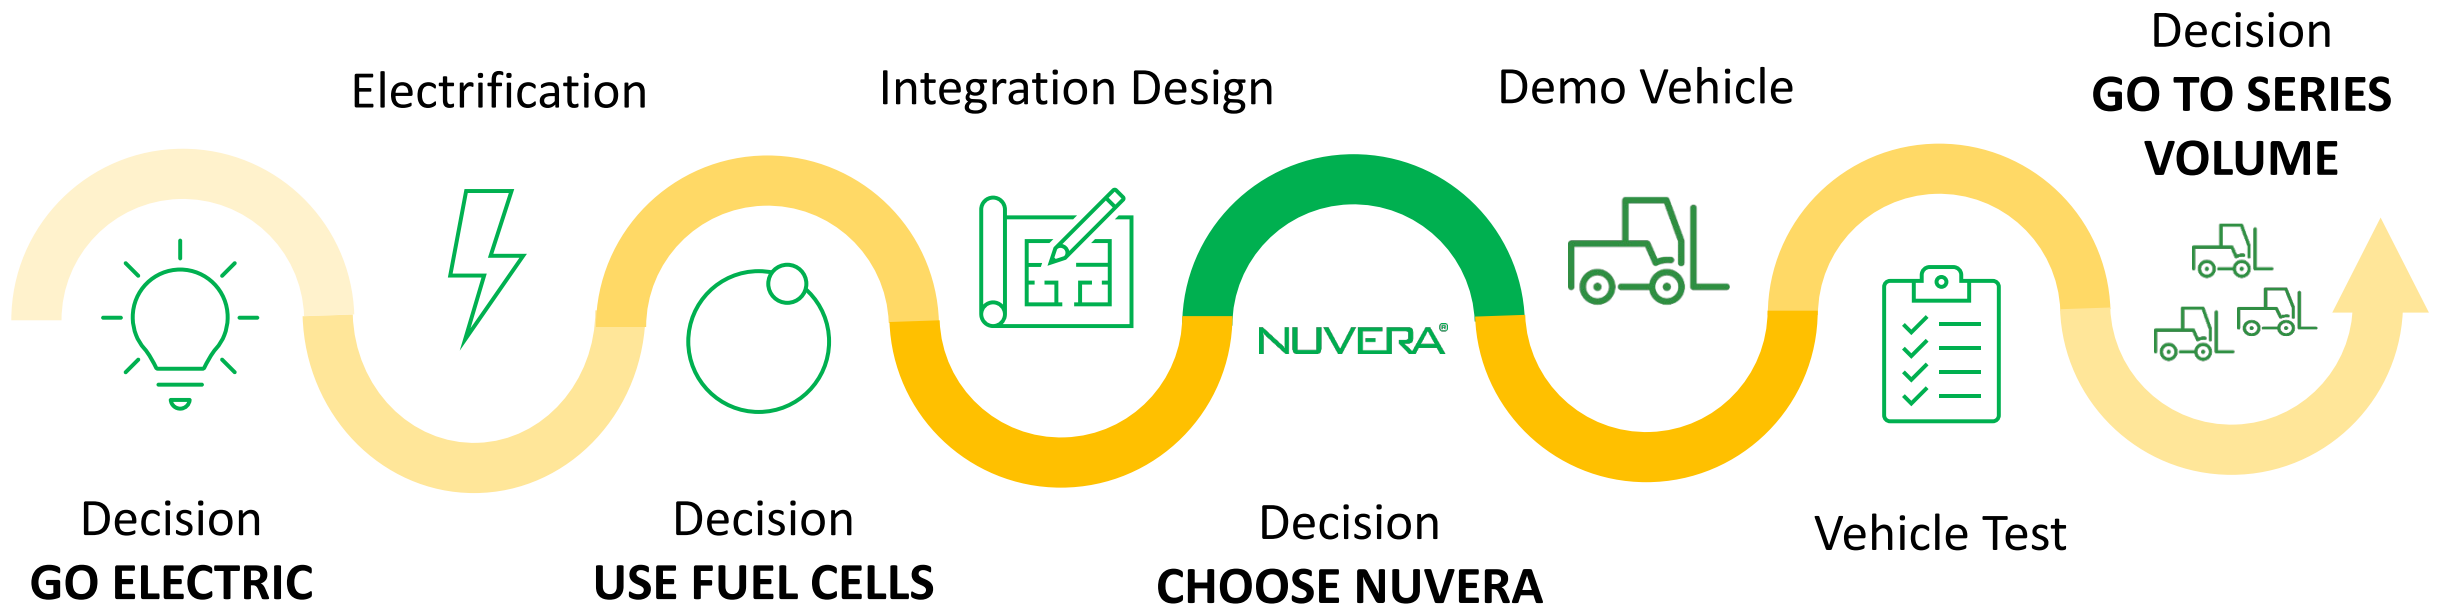

For medium- and heavy-
duty equipment and
vehicles

EN-125

In development

Nuvera Product Platforms: Integrated service / support to customers

Nuvera supports customers along their lengthy hydrogen implementation journey

A minimum of an 18-month process

Product Platforms: Application Focus Markets

- Off-Road Equipment
- Trucks
- Buses
- Delivery Vans & Commercial Vehicles
- Specialty/Utility Vehicles

Nuvera Product Platforms: Integration Partners in Focus Markets

Strategic Partnerships

- Dayco (global)
- UMS (Europe)
- ZRHE (China)
- he2 Power (India)
- Hyster Yale (Global)

Application Development Vehicle Demonstration + Deployment

Key Takeaways – Q1 2023

Strong Results

Quarterly Revenues of nearly \$1 billion

Net income of \$26.6M was ahead of expectations

Moderating Headwinds

Price-to-cost ratio improving

Cost inflation rate slowing, fewer supplier constraints

Americas improvement outpacing EMEA

Improving Backlog

Backlog decrease of ~13% from Q1 2022 peak due to higher shipments and lower bookings

Backlog value increased:
Avg. sales price/backlog unit ~34% from Q1'22

Strong 2023 Results Expected

Improving backlog, moderating headwinds and maturing strategic initiatives expected to lead to significant revenues and profits

Long-Term Growth

Results of Core Strategies to transform HY's:

- ✓ competitiveness
- ✓ market position
- ✓ economic performance

New Yale® Brand Identity Launched

Emphasizes focus on technology-enabled trucks to help warehouse material handling operations become more productive and cost effective

APPENDIX

Non-GAAP Disclosure

Adjusted EBITDA is not a measurement under U.S. GAAP, should not be considered in isolation or as a substitute for GAAP measures, and is not necessarily comparable with similarly titled measures of other companies. Hyster-Yale defines Adjusted EBITDA as the following:

- Adjusted EBITDA is defined as income (loss) before Goodwill and fixed asset impairment charges, income taxes and noncontrolling interest plus net interest expense and depreciation and amortization expense

For reconciliations from GAAP measurements to non-GAAP measurements, see the following pages.

Non-GAAP Reconciliation Adjusted EBITDA

(\$ in millions)	Year Ended December 31					LTM	Qtr.	Qtr.

Note: Adjusted EBITDA in this investor presentation is provided solely as a supplemental disclosure with respect to operating results. Adjusted EBITDA does not represent net income (loss) or operating income (loss), as defined by U.S. GAAP, and should not be considered as a substitute for net income or net loss or operating profit or loss, or as an indicator of operating performance. The Company defines Consolidated Adjusted EBITDA as income (loss) before Goodwill and fixed asset impairment charges, income taxes and noncontrolling interest plus net interest expense and depreciation and amortization expense. The Company defines Adjusted EBITDA for the segments as operating profit (loss) before Goodwill, fixed asset and other intangible assets impairment charges plus other income (expense) and depreciation and amortization expense. Adjusted EBITDA is not a measurement under U.S. GAAP and is not necessarily comparable with similarly titled measures of other companies.

Valuation Approach Should Vary by Business

Lift Truck & Attachments Businesses

- Mature Cyclical Industry
- Market Leading Products and Position
- Operating Cash Generation
- Value Using Traditional Valuation Model of EBITDA Multiple on a Net Debt Basis

Multiple should reflect ROIC levels due to Hyster-Yale's distribution strategy

Fuel Cell Business

- Venture / Technology Industry
- Distinct Technology / Patents in Fuel Cell
- Operating Cash Invested in New Product Commercialization / Ramp Up
- Value as Venture Business with Developed Technology
