

Q4 2022 QUARTERLY INVESTOR PRESENTATION

*Transforming the way the world moves
materials from Port to Home*

Delivering tailored solutions through a portfolio of exceptional brands

Safe Harbor Statement & Disclosure

This presentation includes forward-looking comments subject to important risks and uncertainties. It may also contain financial measures that are not in conformance with accounting principles generally accepted in the United States of America (GAAP).

Refer to Hyster-Yale's reports filed on Forms 8-K (current), 10-Q (quarterly), and 10-K (annual) for information on factors that could cause actual results to differ materially from information in this presentation and for information reconciling financial measures to GAAP. Past performance may not be representative of future results.

Forward-looking information noted in the following slides was effective as of the Company's most recent earnings release and conference call (February 28, 2023). Nothing in this presentation should be construed as reaffirming or disaffirming the outlook provided as of that date.

This presentation is not an offer to sell or a solicitation of offers to buy any of Hyster-Yale's securities.

- ✓ economic performance

Hyster-Yale at a Glance

Hyster-Yale Materials Handling, Inc. (NYSE:HY) is a leading globally integrated, full-line lift truck manufacturer offering a broad array of solutions aimed at meeting the specific materials handling needs of its customers.

Key Metrics

In millions (except employee data)

Q4 2022:

	Lift Truck	Bolzoni	Nuvera
Revenue	\$938.0	\$92.0	\$1.3
Operating Profit (Loss)	\$27.2	\$2.0	(\$9.3)
Adjusted EBITDA ⁽¹⁾	\$36.8	\$5.1	(\$9.1)

FY 12/31/22:

Revenue	\$3,359.6	\$355.7	\$3.4
Operating Profit (Loss)	(\$10.4)	\$6.2	(\$34.3)
Adjusted EBITDA ⁽¹⁾	\$24.3	\$18.2	(\$33.6)
Net Debt at end of period	(\$480.0)	(\$13.7)	N/A
Approximate # of Employees (globally)	6,700	1,300	200

⁽¹⁾ Adjusted EBITDA is a non-GAAP measure and should not be considered in isolation or as a substitute for GAAP measures. See non-GAAP explanations and the related reconciliations to GAAP measures in the Appendix starting on page 55.

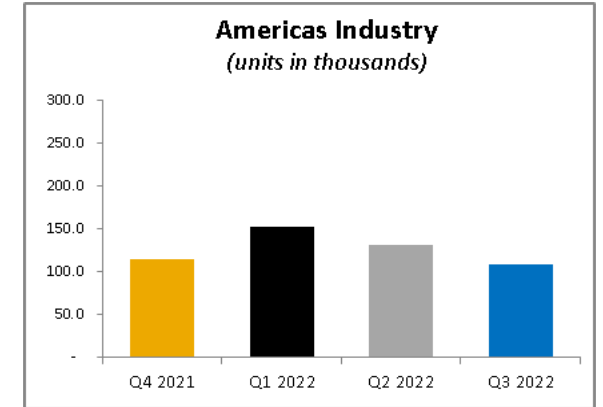

Strong, but Moderating Global Lift Truck Market

Global Lift Truck Industry Size*

(units in thousands)

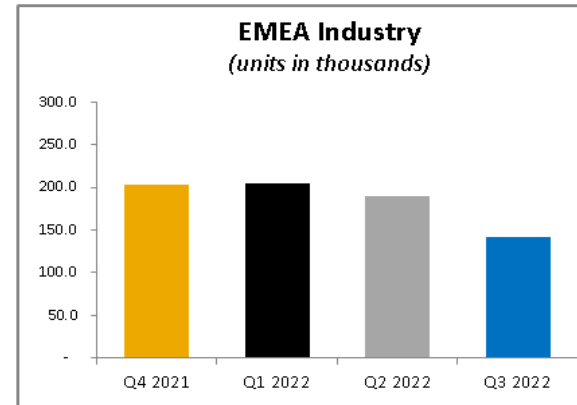

Lift Truck Industry Q3* 2022 vs Q1 2022, Q2 2022 and Q4 2021

Impact of Headwinds on HY are Moderating

Potential Headwinds

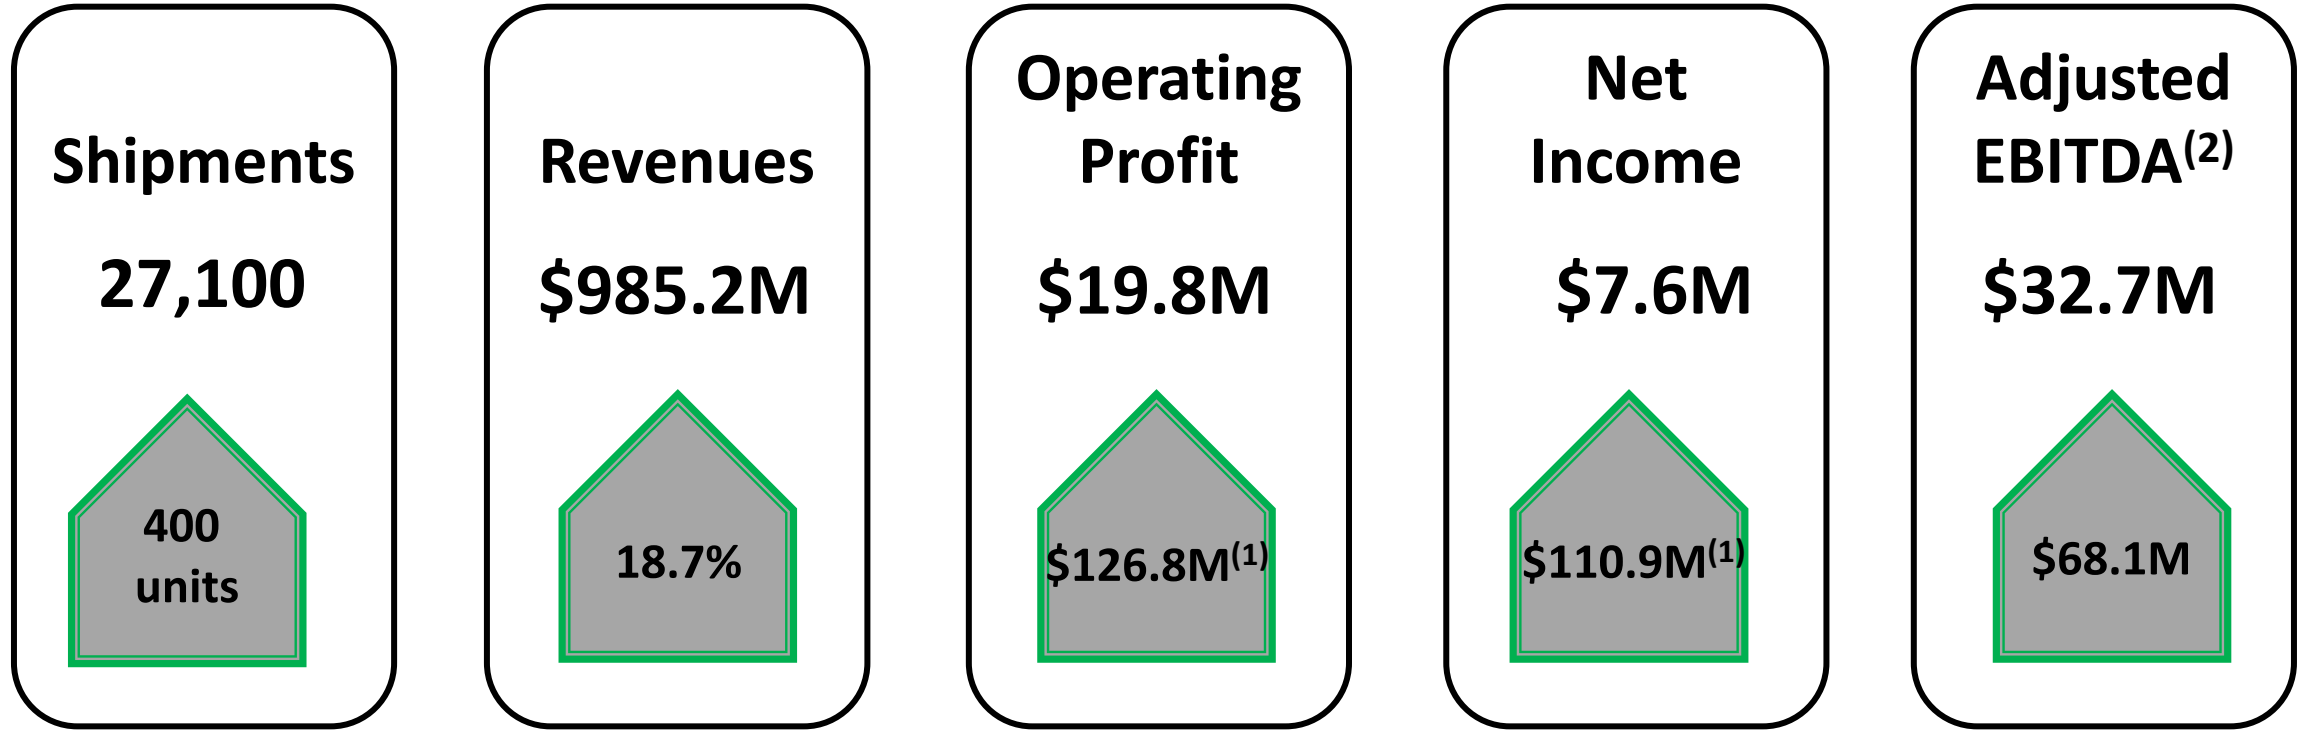

Russia/Ukraine
conflict expansion

Economic
Recessionary Trends

Marks progress against headwinds:

Improved Q4 2022 Consolidated Results versus Q4 2021

- Record quarterly consolidated revenues in Q4 2022, up 18.7% versus Q4 2021 due to higher pricing and a favorable sales mix.
- Consolidated operating profit and net income increased over Q4 2021, absent 2021 charges, due to higher unit margins.

(1) Q4 2021 operating profit includes \$55.6 million goodwill impairment charge; net income includes charge of \$19.4 million for valuation allowance.

(2) Adjusted EBITDA is a non-GAAP measure and should not be considered in isolation or as a substitute for GAAP measures. See non-GAAP explanations and the related reconciliations to GAAP measures in the Appendix starting on page 55.

Results for Q4 2022 Consolidated vs. Q4 2021

CONSOLIDATED <i>(\$ in millions)</i>	HY Q4 2022	HY Q4 2021	Variance
Shipments	27,100	26,700	400
Revenues	\$985.2	\$829.7	\$155.5
Gross Profit	\$146.7	\$63.5	\$83.2
Operating Expenses	(\$126.9)	(\$170.5)	\$43.6
Operating Profit (Loss)	\$19.8	(\$107.0)	\$126.8
Net Income (Loss)	\$7.6	(\$103.3)	\$110.9
Adjusted EBITDA ⁽²⁾	\$32.7	(\$35.4)	\$68.1

SEGMENTS <i>(\$ in millions)</i>	Q4 2022 Lift Truck ⁽¹⁾	Q4 2022 Bolzoni ⁽¹⁾	Q4 2022 Nuvera ⁽¹⁾
Revenues	\$938.0	\$92.0	\$1.3
Gross Profit (Loss)	\$129.2	\$19.3	(\$1.7)
Operating Expenses	(\$102.0)	(\$17.3)	(\$7.6)
Operating Profit (Loss)	\$27.2	\$2.0	(\$9.3)
Adjusted EBITDA ⁽²⁾	\$36.8	\$5.1	(\$9.1)

Segment Comments

- Price increase benefits drove a 19.7% increase in Lift Truck revenues, far outpacing the modest shipment increase
- Lift Truck operating profit significantly ahead of prior year and company expectations despite component shortages and unfavorable currently effects
- Bolzoni returned to profitability. Price increase benefits and lower material and manufacturing costs more than offset reduced customer volumes, a loss on sale of a subsidiary and unfavorable currency movements
- Nuvera's loss decreased from Q4 2021 primarily driven by a prior year charge and a modest volume increase

(1) These entities are presented on a stand-alone basis, and as such, do not sum to the Consolidated financial information.

(2) Adjusted EBITDA is a non-GAAP measure and should not be considered in isolation or as a substitute for GAAP measures. See non-GAAP explanations and the related reconciliations to GAAP measures in the Appendix starting on page 55.

Improving 2023 Outlook

Backlog levels will drive future performance and support unit margin expansion

Lift Truck
Expect a significant increase in revenues and a substantial operating profit in 2023

Bolzoni
Expect increased margins over time and higher operating profit in 2023 versus 2022

Nuvera
Comparable FY 2023 operating loss versus FY 2022, but enhanced foundation for improved returns

Substantial 2023 operating profit and net income expected at Consolidated level

Average sales price/backlog unit increased by ~ 34% from Q4 '21 and ~ 7% from Q3 '22

- Highlights progress made working through lower-margin units

**December 31, 2022 and September 30, 2022 Unit Backlogs were reduced by 2,600 units due to suspended orders from Russian dealers which HY currently has no defined fulfillment plans.

Disciplined Approach to Capital Allocation and Cash Usage

Protecting Liquidity in current environment

- Unused Borrowing Capacity of ~\$183m and ~\$59m in Cash @ 12/31/22
- Managing capital expenditure timing for strategic programs; focusing on strict cost controls
- Concentrating on inventory reductions by maximizing utilization of on-hand materials to complete trucks in our backlog before ordering new materials

INVESTMENTS

Lift Truck

Expense and capital investments in strategic programs to accelerate growth and enhance margins

Nuvera

Investments to commercialize Nuvera fuel cell technology

Bolzoni

Expense and capital investments in strategic programs to accelerate growth and enhance margins

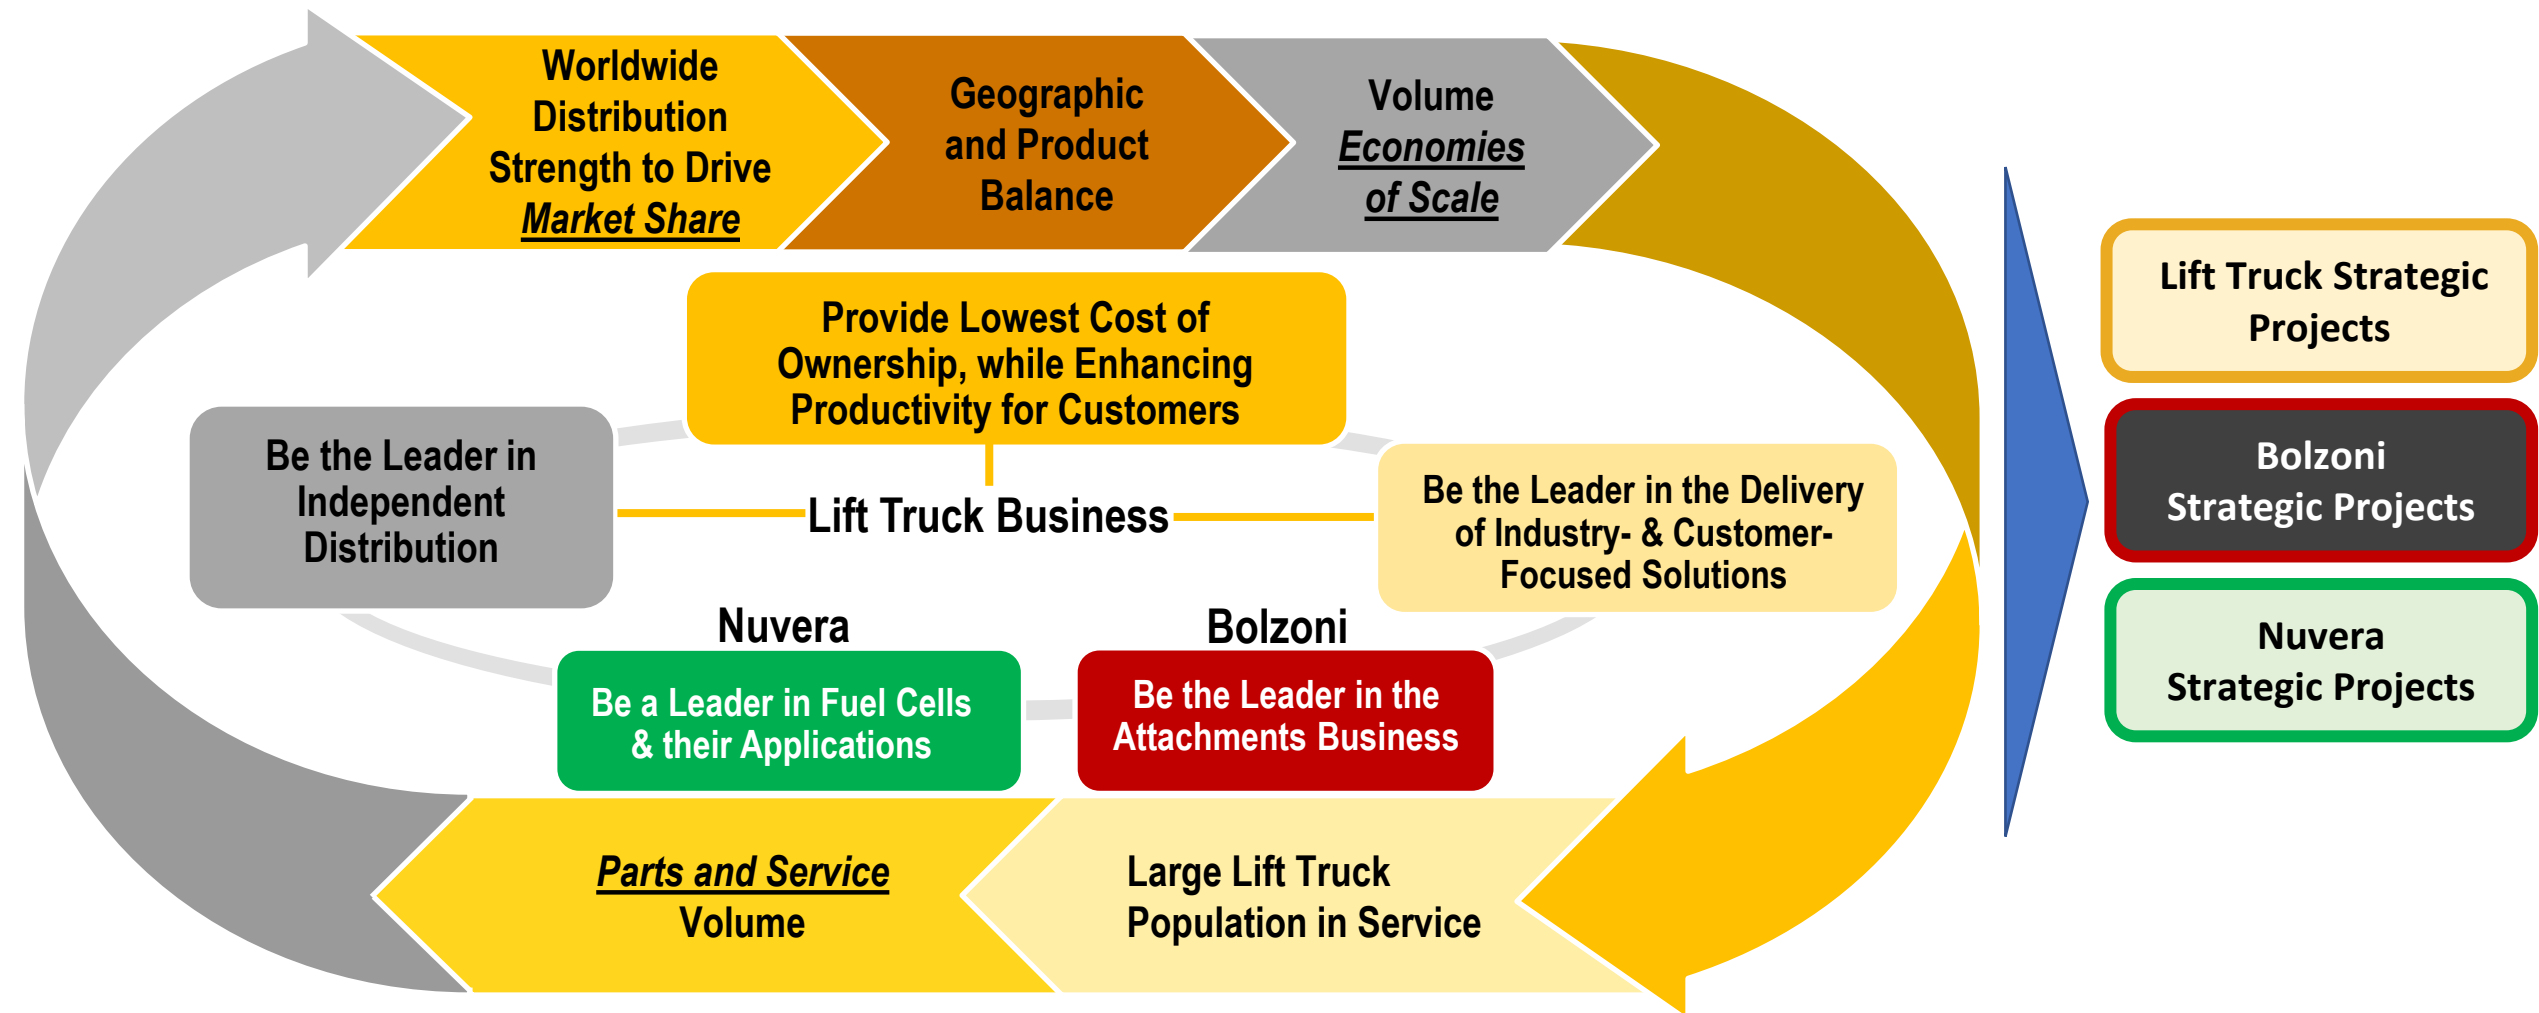

Return Cash to Stockholders

Annual Dividends ⁽¹⁾		
2020	2021	2022
\$21.3m \$1.27/ share	\$21.6m \$1.29/ share	\$21.8m \$1.29/ share

⁽¹⁾ Dollars represent total dividends paid during calendar year, while dividend per share represents the annualized dividend rate after May increase in 2021.

Core Strategies Designed to Drive Economic Engine by Increasing Market Share

Hyster-Yale has five core strategies to drive growth, with each supported by strategic projects

Transformational Projects Create a Strong Long-Term Investment Option

Through key strategic projects, HY is transforming its business using an Industry Approach to achieve financial targets

Lift Truck Transformation

Transformative Products

- Modular & Scalable (1, 2)
- Low Intensity (1, 2)

Technological Accelerators

- Electrification, Fuel Cell, Telemetry, Automation & Web Presence (1, 2)

Transformation of Sales Approach

- AsOne, HY Impact + HY Flow programs (3)
- Industry approach (2)

Bolzoni Transformation

Transformation of Global Business Structure

- One Company / 3 Brands
- Growth Projects for Americas (locally-produced products), EMEA (Smart Products) & JAPIC (Silver Line)
- Industry approach

Nuvera Transformation

- Commercialization of E-45 / E-60 engines globally
- Development of larger E125 engine
- Commercial Partnerships

Legend – Core Strategies

- 1 - Provide Lowest Cost of Ownership, while Enhancing Productivity for Customers
- 2 - Be the Leader in the Delivery of Industry- & Customer-Focused Solutions
- 3 - Be the Leader in Independent Distribution

Long-term Focused, not Short-term Oriented

STRATEGIC PERSPECTIVE

Overview

Overview and Sources of Revenue

A leading global lift truck manufacturer

Large installed population that drives parts sales
 ~ 990,000 lift truck units worldwide at 12/31/22

HY sales of ~ 101,800 lift truck units in **LTM 12/31/22**
 ~78,700 units sold – produced in HY plants
 ~13,200 units sold – produced by HY Maximal
 ~9,900 units sold – produced by JV or other third parties

Additional ~ 8,000 lift truck units sold in 2022 by Sumitomo NACCO (JV partner)

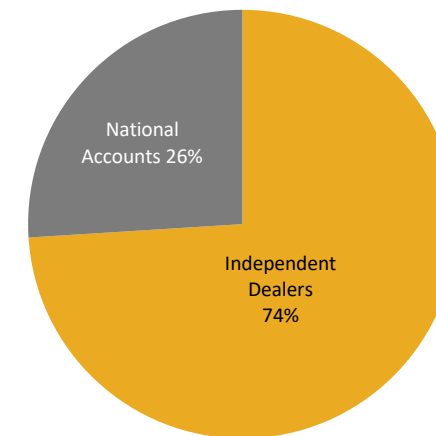

2022 Worldwide Sales by Product

2022 Retail Lift Truck Shipments by End Market (2)

2022 Lift Truck Distribution Channel Mix

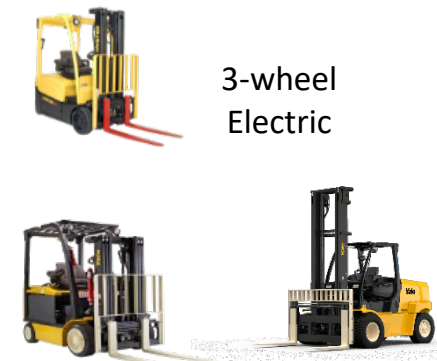

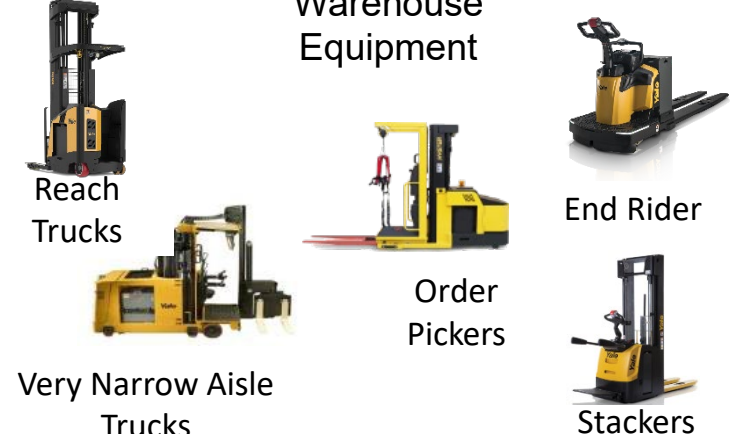

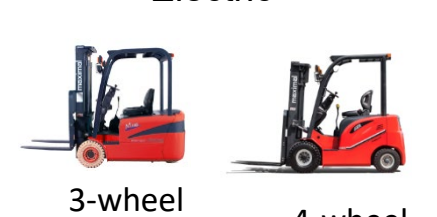

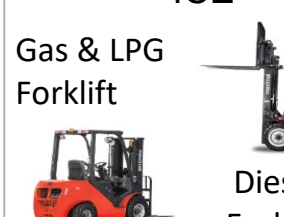

(1) Includes Big Truck sales that represent 9% of total sales.

(2) Represents Hyster-Yale North American Lift Truck unit shipments by industry.

Full Lift Truck Product Line - Over 600 Different Truck Models Available....

Hyster® & Yale® ~ 360 models

HY Maximal ~ 250 models

HY Product Launches

Launched in 2022:

- Production of New modular 2-3.5 ton Pneumatic ICE trucks for Americas.
- Production of additional options for the 2-3.5 modular products for EMEA.
- Production of new 4 to 5-ton ICE Hyster® UT and Yale® UX lift trucks for EMEA.
- Production of new 5 to 7-ton ICE Hyster® UT and Yale® UX lift trucks for APIC, LAM and Brazil.
- Production of 35 to 52-ton Container Handler with new operator compartment and Cummins 12L engine.
- Production of localized RS 45 Reach Stacker for AP and China markets.
- Additional Li-Ion options across all Warehouse products for EMEA market.
- Production of localized 2 to 3-ton Platform Pallet truck for APIC market.
- Production of new 1.8 to 5.0-ton Rough Terrain for APIC and Brazil.
- Additional Maximal-branded lift trucks for all countries.
- Hydrogen-powered Container Handler delivered to Port of LA for testing.

Expected in 2023:

- Increase production of 2-3.5 ton modular products in the Americas and EMEA.
- Launch the 2-3.5 ton modular products in the JAPIC markets.
- Upgrade certain warehouse products for the EMEA and Americas markets.
- Expand options of low-intensity Hyster® UT, Yale® UX, and Maximal-branded lift trucks for all regions.
- Deliver Hydrogen-powered Reach Stacker to Port of Valencia, Spain for testing.
- Deliver first hydrogen-powered Terminal Tractor to port in Hamburg, Germany for testing.
- Targeted introductions of internally developed, modular automated trucks.

Bolzoni Auramo Inc – Sulligent, AL - Growth Drivers in Place

A plant to serve the Americas market

- Product localization focused on specific local market requirements
- Wide-handling attachments range, as well as forks
- North America and Latin America market coverage
- Expanded manufacturing of cylinders provides opportunity for Americas market

Bolzoni China: Growth Drivers in Place

Wuxi (Attachments)

- Product localization focused on specific local and global market requirements
- Competitive pricing and quick delivery time
- Improved productivity and efficiency from production process improvements
- Silver Line range manufacturing addressed to all markets

Competitively
positions
Bolzoni on cost
in emerging
markets

Hebei (Forks)

- Manufactures a complete range of forks for lift trucks, construction and agricultural material handling machines
- Fork range includes reach forks and smart-fork solutions
- Range developed to meet global market needs
- Continuously improving production processes

Bolzoni Has a Strong OEM Foundation

OEM TOP CUSTOMERS⁽¹⁾⁽²⁾

OEM SALES BY REGION⁽¹⁾⁽²⁾

OEM SALES BY PRODUCT LINE⁽¹⁾⁽²⁾

- (1) For the 12 months ended 12/31/22
- (2) Excludes cylinder sales to HY

**STRONG AND LONG-TERM RELATIONSHIPS RESULTING IN
BUSINESS GROWTH ACROSS ALL REGIONS**

Nuvera

Nuvera Is a Transformational Opportunity

NUVERA[®]

Leading, Patented Technology

Demand Tapered in Short-term

Automated Fuel Cell Stack Assembly Lines for Series Production

Successful Early-Stage Adoption

Expected Transformational Impact on Hyster-Yale Future Profitability

At a Glance:

Technology Experience

- 75+ engineers
- 8th generation of Fuel Cell technology
- 20+ years of Fuel Cell vehicle integration

Intellectual Property

- 425+ active patents
- Fuel Cell core technology

Application Portfolio

- E-45kW & E-60kW Fuel Cell engines SMVIC-certified
- First bus with E-series engine MIIT certified
- High-efficiency Fuel Cell stacks

Separate Business Unit

- Focus on core product (Fuel Cell Stacks and Engines)
- Leveraging Hyster-Yale strengths
- Ramping up for growth

Nuverera Has a Distinctive Place Within Hyster-Yale

Growing hydrogen fuel cell market provides opportunities for Nuvera to add significant value to HY

- Venture business, with strong commercialized products, focusing on gaining sales
- Important supplier fit as part of HY's focus on a broad range of alternative power systems for lift trucks, with a significant market opportunity outside the lift truck market
- Key sales and profitability milestones established but timing cannot be predicted with precision
- Despite losses, HY believes Nuvera is creating significant value for HY shareholders

NUVERA®

Technology: Optimized Fuel Cell Engine Design

Nuvera® FC Engines enable commercial and industrial vehicle electrification

Embedded controls

For ease of integration, reliability, and durability

Unique Stack architecture

High efficiency and power density

Telemetry

Effective remote monitoring of FC engine

Nuvera Product Platforms: Comprehensive approach to hydrogen mobility market

Nuvera makes FC technology **WORK** for customers

Stacks / Subsystems

For OEMs that understand stack deployment

Broadly applicable: scalable and modular

E-Series Fuel Cell Engines:

E-45 and E-60

Easily integrated fuel cell module

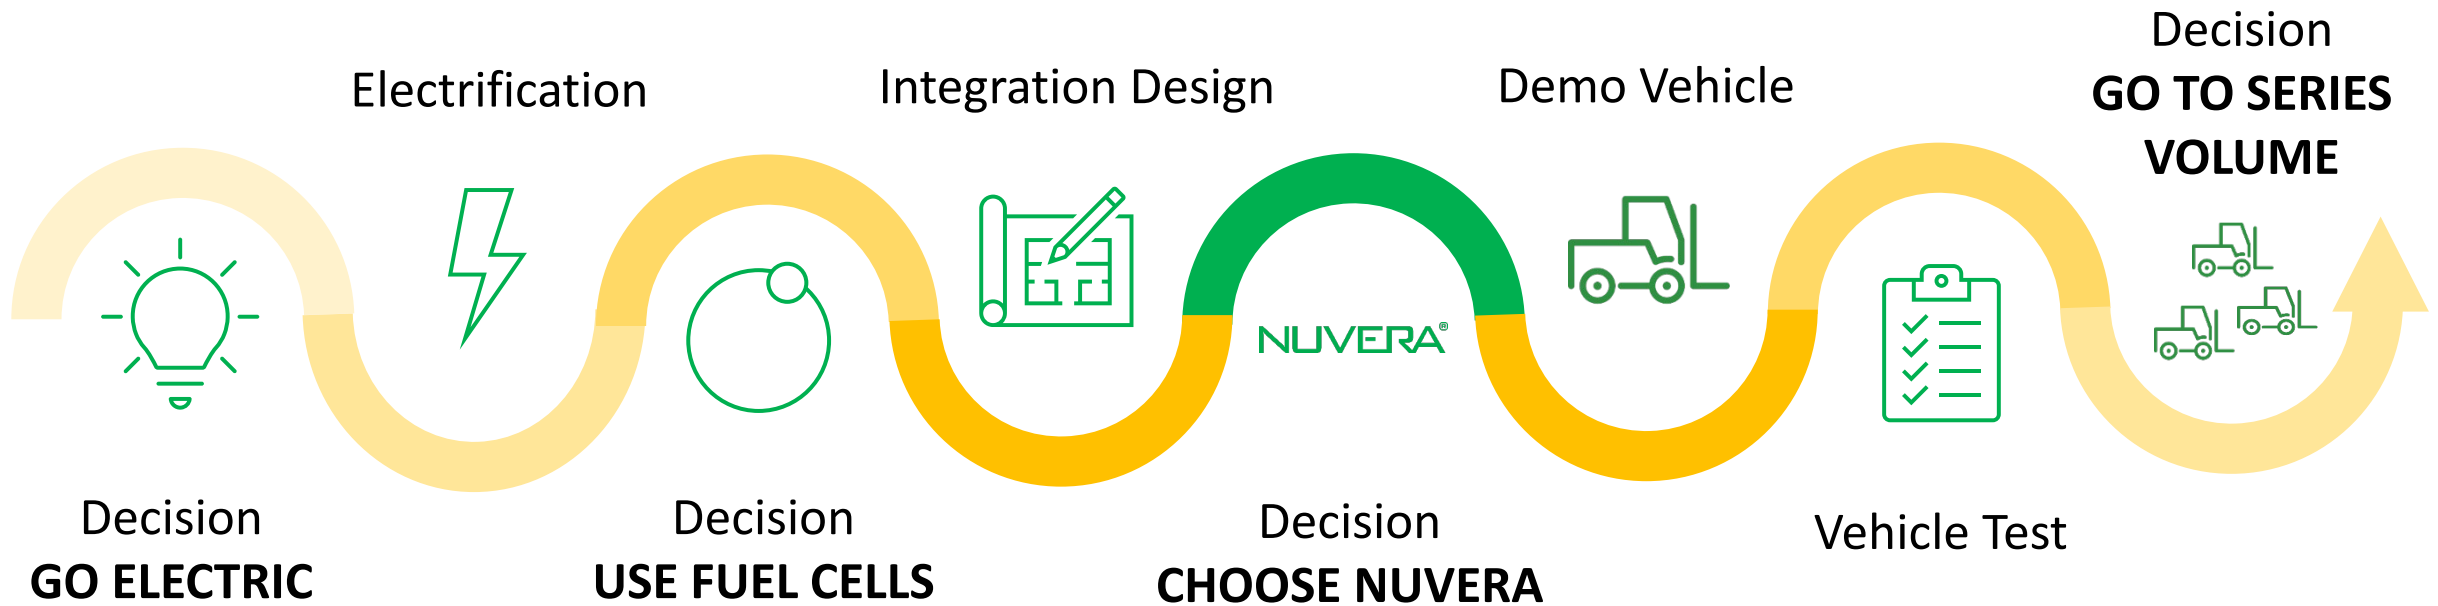

For medium- and heavy-duty equipment and vehicles

EN-125

In development

Nuvera Product Platforms: Integrated service / support to customers

Nuvera supports customers along their lengthy hydrogen implementation journey

A minimum of an 18-month process

Product Platforms: Application Focus Markets

- Off-road equipment
- Delivery Vans & Commercial Vehicles
- Trucks
- Specialty/Utility Vehicles
- Buses

Danner® Mobile Power Station:
FC concept in development

Hyster® Toploader: Demo unit

ZRHE / KingLong bus:
Operational and in Demonstration

H2e Power Bus with OIL India:
(in development)

Capacity Terminal Tractors:
Fuel Cell integration
(in development)

Devinn Mobile Charger:
Fuel Cell Integration
Demo Unit

Nuvera Product Platforms: Integration Partners in Focus Markets

Strategic Partnerships

- Dayco (global)
- UMS (Europe)
- ZRHE (China)
- he2 Power (India)
- Hyster Yale (Global)

Application Development Vehicle Demonstration + Deployment

Key Takeaways – Q4 2022

Strong Results

Record Quarterly Revenues
\$985.2M

Profitable, better-than-expected,
Net Income \$7.6M

Moderating Headwinds

Supply Chain Constraints abating

Cost Inflation rate slowing

Improving Backlog

Increasing shipments

~10% backlog decrease from peak in Q1 2022

Increasing backlog value
*Avg sales price/backlog unit
+34% from Q4'21*

2023 Building on Q4 Momentum

Improving backlog of higher-margin trucks provide strong 2023 base

Long-Term Growth

Core Strategies to transform HY's:

- ✓ competitiveness
- ✓ market position
- ✓ economic performance

APPENDIX

Non-GAAP Disclosure

Adjusted EBITDA is not a measurement under U.S. GAAP, should not be considered in isolation or as a substitute for GAAP measures, and is not necessarily comparable with similarly titled measures of other companies. Hyster-Yale defines Adjusted EBITDA as the following:

- Adjusted EBITDA is defined as income (loss) before Goodwill and fixed asset impairment charges, income taxes and noncontrolling interest plus net interest expense and depreciation and amortization expense

For reconciliations from GAAP measurements to non-GAAP measurements, see the following pages.

Non-GAAP Reconciliation Adjusted EBITDA

(\$ in millions)	Year Ended December 31					Qtr.	Qtr.
	2018	2019	2020	2021	2022	12/31/21	12/31/22
Consolidated							
Reconciliation of EBITDA							
Net income (loss) attributable to stockholders	\$34.7	\$35.8	\$37.1	\$(173.0)	\$(74.1)	\$(103.3)	\$7.6
Goodwill and other intangible assets impairment charges	-	-	-	55.6	-	55.6	-
Fixed Asset impairment charges	-	-	-	10.0	-	-	-
Noncontrolling interest	(0.4)	0.8	1.4	(10.2)	2.5	(11.5)	0.3
Income tax provision	2.3	11.3	3.7	28.3	9.2	7.8	5.2
Interest expense	16.0	19.8	13.7	15.5	28.4	4.8	9.5
Interest income	(2.4)	(1.8)	(1.4)	(0.6)	(1.1)	(0.3)	(0.3)
Depreciation and amortization expense	44.0	43.3	42.9	46.2	43.4	11.5	10.4
Adjusted EBITDA	\$94.2	\$109.2	\$97.4	\$(28.2)	\$8.3	\$(35.4)	\$32.7
(\$ in millions)	Year Ended December 31					Qtr.	Qtr.
	2018	2019	2020	2021	2022	12/31/21	12/31/22
Lift Truck							
Reconciliation of EBITDA							
Operating Profit (Loss)	\$67.5	\$85.6	\$85.6	\$(86.9)	\$(10.4)	\$(93.2)	\$27.2
Goodwill and other intangible assets impairment charges	-	-	-	55.6	-	55.6	-
Other income (expense)	11.7	10.9	3.3	7.3	3.7	4.0	2.2
Depreciation and amortization expense	33.5	30.6	30.1	32.3	31.0	7.9	7.4
Adjusted EBITDA	\$112.7	\$127.1	\$119.0	\$8.3	\$24.3	\$(25.7)	\$36.8

Note: Adjusted EBITDA in this investor presentation is provided solely as a supplemental disclosure with respect to operating results. Adjusted EBITDA does not represent net income (loss) or operating income (loss), as defined by U.S. GAAP, and should not be considered as a substitute for net income or net loss or operating profit or loss, or as an indicator of operating performance. The Company defines Consolidated Adjusted EBITDA as income (loss) before Goodwill and fixed asset impairment charges, income taxes and noncontrolling interest plus net interest expense and depreciation and amortization expense. The Company defines Adjusted EBITDA for the segments as operating profit (loss) before Goodwill, fixed asset and other intangible assets impairment charges plus other income (expense) and depreciation and amortization expense. Adjusted EBITDA is not a measurement under U.S. GAAP and is not necessarily comparable with similarly titled measures of other companies.

Valuation Approach Should Vary by Business

Lift Truck & Attachments Businesses

- Mature Cyclical Industry
- Market Leading Products and Position
- Operating Cash Generation
- Value Using Traditional Valuation Model of EBITDA Multiple on a Net Debt Basis

Multiple should reflect ROIC levels due to Hyster-Yale's distribution strategy

Fuel Cell Business

- Venture / Technology Industry
- Distinct Technology / Patents in Fuel Cell
- Operating Cash Invested in New Product Commercialization / Ramp Up
- Value as Venture Business with Developed Technology
